Fly Terminator Pro

Fly Terminator® Pro Fly Trap is an insecticide-free fly trap ideal for use around livestock operations. The reusable, durable plastic gallon jug traps up to 35,000 flies. The no-rust plastic top won't rust when exposed to the elements and its sturdy handle makes Fly Terminator® Pro Fly Trap easy to hang.

Baffled Black Top feature, once flies get trap means they stay in the trap!

Disposal: DO NOT DISPOSE ON TRASH BINS! Dig up a hole and throw fluid and flies in!
