Protecta Evo Landscape

Looking every bit like a rock, PROTECTA EVO Landscape is a rat-size bait station designed to blend in with outdoor environment. Its realistic colors - sandstone and granite - and naturally textured surface give this bait station the authentic look of a rock.

The single lock with the EVO key provides added security and allows for easy opening and closing. Servicing the station is simple with the built-in service record card holder, one-piece liner and its side-opening design. The service record can also be zip-tied to exterior of station wherever necessary.

Four vertical bait securing rods hold eight 15g, 20g or 28g/1 oz. BLOX securely in the station. It also holds a TRAPPER T-Rex Rat Snap Trap. This station is made of heavy-duty, injection-molded plastic with a durable hinge built to withstand frequent servicing. Drain hole in bottom of station.

PROTECTA EVO Landscape delivers superior durability that PMPs have come to expect in Bell's tamper-resistant bait stations.
