Insect-a-clear T100

The Insect-a-clear Model T100 protect areas against infestation of flying insects for up to 100sq.metres. It is recommended for restaurants, shops, food factories, supermarkets, food preparation areas etc., indeed anywhere where flying insects are a problem. Whether you wish to wall mount or suspend these models, every machine comes complete with wall mounting kit and suspension chains.

The following features are included on the Insect-a-clear Model T100:

- All steel construction, zinc coated and then powder coated for excellent corrosion resistance.
- STAINLESS STEEL VERSION AVAILABLE
- A large catchment tray with anti-crawl lips ensures easy and hygienic disposal of the dead insects
- Quick tube changing - the front guard is easily removed WITHOUT THE USE OF TOOLS giving access to the tube and grid for servicing purposes.
- REMOVABLE HIGH VOLTAGE GRID.
- Uses a specially developed ultra violet tube that has proved to be irresistible to flying insects and are readily available from your supplier.
- Can be wall mounted, suspended or free standing.

Conforms to the European EMC directive. Conforms to BS EN 60335-2-59. Full 2 year guarantee (except tube(s) & starter) terms & conditions apply.
