Insect-a-clear **Wall Fly**

The curvaceous WALL-FLY has been designed for those areas requiring discreet flying insect control. It is therefore suitable for reception areas, front of house locations etc.

Out go the harsh square corners commonly associated with up-lighters, in come soft, rounded lines. But don't be fooled by its attractive exterior – this is a mean killing machine!

It is fitted with an energy saving 18w lamp and a large unobstructed glue-board with coverage reaches 90m², & size of 4505x200x140 mm. The WALL-FLY is available in satin finish stainless steel or soft white, so can blend into any décor.

The Insect-a-clear WALL-FLY incorporates the following features:

- Very quick and easy tube changing, the whole operation taking less than 90 seconds - without the use of tools.
- The specially designed ultra violet attractant lamp are widely used in the pest control industry and are readily available from your supplier.
- Comes complete with a glue board and screw pack.
- Comes complete with a mains lead with IEC plug and 3 pin UK plug fitted.

Conforms to BS EN 60598-1:2004 and EN 60598-2-1:1989. A full 2 year guarantee (except lamp & starter).
