Insect-a-clear Protect-a-lite 8

With its discreet and attractive design the Protect-a-lite 8 is recommended for use in domestic and smaller professional environments. The Protect-a-lite 8 is designed to be placed as either a free-standing or wall-mounted unit.

The Protect-a-lite 8 uses a powerful ultraviolet lamp which attracts flying insects. On the inside of the unit a glueboard is placed on which the insects are trapped. This glueboard is placed out of sight providing discreet control of the flying insect pests. Protect-a-lite 8 is easy to install, easy to service and safe to use. The unit is designed for indoor use only.

The following features are incorporated on the Protect-a-lite 8 fly killer:

- Stylish contemporary fly killer design Board life 6-8 weeks depending on environmental conditions and infestation
- The Protect-a-lite 8 can be either free-standing or wall mounted, via a neat wall bracket, supplied.
- With its discreet and attractive design the Protect-a-lite 8 is recommended for use in domestic and smaller professional environments.
- Board life 6-8 weeks depending on environmental conditions and infestation

CE approved and formally tested to acc. IEC 60.335-259 int. std 1 year guarantee (except lamp and glue board). Terms and conditions apply
