Insect-a-clear T95-IP

The Insect-a-clear Model T95-IP (IPX5) has been designed to offer effective insect control in restaurants, food factories, food preparation areas, larger kitchens etc. The Model T95-IP can be wall mounted, suspended or free standing and is particularly suited to areas where ceiling height or wall space is restricted. It has been tested and approved to the latest British and European standards. An important feature is the all steel case which, unlike most plastics, will not degrade with the effect of UV light.

Please look at the impressive list of features incorporated on the Insect-a-clear T95-IP:

- All steel construction, zinc coated and then powder coated for excellent corrosion resistance.
- A STAINLESS STEEL VERSION IS AVAILABLE.
- Universal design - can be suspended, wall mounted or free standing.
- Electrical plug and socket on machine side allows easy isolation for servicing.
- Supplied and fitted with a 3 pin UK plug, with coverage of 180m², size of 690x275x145 mm.
- A large catchment tray for easy and hygienic disposal of the dead insects.
- Easy servicing, NO TOOLS REQUIRED.
- Removable high voltage grid.
- Plastic has been avoided in the main construction as this can seriously degrade with the Effects of ultra violet light.
- Only high quality high output QUANTUM UV tubes are used. Shatter resistant tubes can be fitted.

Conforms to BS EN 60335-2-59 and the European EMC directive. Full 2 year guarantee (except tubes & starters) terms & conditions apply.
